

Air Arabia Q2 2017 Investors' Presentation

The Development of Air Arabia

Air Arabia - General Overview

Company Overview

- Launched in October 2003, Air Arabia was the first and is the largest low cost carrier in the Middle East and North Africa.
- 14 years of consistent growth.
- 14 year of consistent profitability.
- Initial Public offering was successfully completed in 2007.
- Operating a total fleet of 48 Airbus 320 aircraft.
- Operates out of 5 locations: Sharjah, Ras Al Khaima, Egypt, Morocco, and Jordan.
- More than 132 routes served from 5 hubs by Q2 2017.
- Financially stable with a strong balance sheet.

Asset Evolution (2009 – 2016)

Leadership

- **First mover advantage** – The first Low cost on MENA, and first listed airline in the Arab world (DFM).
- **Truly Independent** – In Management and Strategic development.
- **Strong support at our home base** – Air Arabia is by far the largest operator in Sharjah Airport, providing commercially competitive advantages.
- **Brand Name** - one of the most recognised brand names in the MENA region.

Powerful business model

- **High Aircraft utilization** – around 15hrs a day, one of the best in the world (A 320).
- **80%+ Seat factor year round.**
- **Low cost principals** – Constantly driving our costs lower to industry leading levels.
- **Safety** – The highest operational standards.
- **Young fleet** – average age around 3 years.
- **Excellent on time performance.** Above industry average and improving
- **Best seat pitch in class** – Comfortable 32 inches.
- **Strong group support** – JV's and subsidiaries helping to drive economies of scale and profitability.

FY 2016

- 2016 was a very tough year on aviation industry generally.
- Pressure on yields continue to exist and comes from various sources.
- Despite that, 2016 witnessed the delivery of 6 new A320s to the fleet.
- The number of passengers carried for the year 2016 increased by 10.7% compared to previous year with Air Arabia carrying 8.46 million passengers.
- Global network grew in 2016 to reach 122 routes from 5 hubs.
- Air Arabia distributed 9% cash dividends for the year 2015.
- Operational performance and operational margins continue to reflect healthy and efficient management.

Revenues (AED) 2004-2015

Net Profits (AED) 2005 -2015

- Air Arabia continued its positive growth during the quarter:
 - Passengers grew by 2%
 - The quarter saw an addition of 10 new routes to the network out of 5 hubs.
 - Total routes by end of the quarter stood at 132
- Yield margin pressure continues to exist, yet vigorous cost control and operational efficiency programs also continue.
- The industry's trading conditions continue to remain challenging.
- Total Fleet stood at 48, with two new Aircraft joining the fleet during the quarter
- 12 new routes across the hubs were introduced during the first half of 2017.
